Pioneer's in the Halal industry:

Established in 1974, Midamar Corporation was the first USA food company to focus on developing an accredited and verified Halal program in cooperation with the USDA. As the international markets in the Middle East and SE Asia evolved in the late 1970's and early 1980's demand for USA agricultural and food products gained notoriety. The challenge remained that there was a lack of Halal produced products in the United States and thus Midamar set out to fill the demand and in so doing developed the standards by which all other Halal programs are measured against today.

Looking to the next decade, we renew our commitment in retaining our status as "America's Favorite Halal Brand," for we are proud to be the leading USA Halal Brand, recognized by consumers as a brand of integrity, quality, and unmatched variety. We believe our ability to expand our lines and channels of business will be a result of the continued growth in the Halal market and from consumer demand for our brand's reputation and pioneering mentality in creating new and exciting products.

Midamar Branded Halal Food Products

The Midamar Halal Brand of food products is globally known for Halal integrity, product quality, and variety across the meat and poultry spectrum. As "America's Favorite Halal Brand," Midamar is able to supply all aspects of retail, foodservice and institutional food needs. Ask us how the Midamar Halal Brand can enhance your portfolio of offerings to your customers.
